General Forestry Practices on Private Lands in Oregon.docx

Looks logical to me and I think your bullets below align with what we have so far. Maybe we can work together on Monday how to organize the bullets. I have thoughts on how to reorganize, but will wait until Monday when we're together. (Well, I may take a crack at this before Monday if I have a chance.)

I just read Christine's message, so I think it'd be good for us to give some thought to environmental problems (#3). Dave and Jayne, I'll let you guys respond to Christine on the status as I don't think any of us have let her know that we're on top of it. Peter has some great photos worth including - it'll be a balance keeping it short and sweet. But we might get Peter to present on some of the visuals as he doesn't beat around the bush and can be in the room with Dennis(?)

Here's a draft of the table. The info is very simplified to keep the message clear, even though it's way more nuanced. I think it's a fair representation of the programs. Dave, I

Subject: RA Draft briefing: preliminary review

Hi Dave and Alan,

I'm working with Jayne on the RA draft briefing, and we wanted to send it to you for your review. Alan, don't worry about reviewing this until you're done with your work this week. We'll set up a meeting with you for Monday, 12/8. Dave, if you're free to give comments by COB Friday, 12/5, or Monday, 12/8 AM, that would be great to have them before we talk with Alan on Monday. It would be great to have something for Christine and JB by COB Monday, 12/8, since we need to get a briefing paper up to Dennis by next Wednesday, 12/10.

So there are a few things Jayne and I thought were good goals for the briefing:

Ex. 5 - Deliberative

So we're looking for feedback on 1) whether those are the right things to go for; 2) whether the flow and structure of the briefing support that; and 3) how well the actual language supports that. Thanks! – Jenny and Jayne
